

ARCHIVE RESULTS 2011

Tuesday 27th December – Warminster Plain Crazy

Just Neil Cranidge and Ginny Willey out for the Doodlers at the Warminster Plain Crazy yesterday. The course was shortened as apparently the Army had not cleared "Death Valley" of explosives!. Neil measured the distance at 11.1 miles. Perfect conditions, really mild and no sign of last year's snow...

Steve says it was a beautiful sunny Sunday morning and perfect running conditions, which may explain why Lerryn was so much faster than predicted, although I think training will have had much more to do with it.

Saturday 29th October to Sunday 30th October - Original Mountain Marathon

Matt Clayton survived this 2-day event in the wilds of Scotland which is for teams of 2 carrying all clothing, equipment, tent, sleeping bag, food for 36 hours, navigating one's own route and including an overnight camp. Teams are totally self-supporting and no GPS or outside support is allowed.

Matt reports that after 8 hours of very poor visibility, gale force winds and rain over mountainous terrain, he ended the first day with hypothermia and muscle cramps.

On day 2 he woke at 6am to the sound of bagpipes to start another 7 hour day.

Matt and his partner (not Pat by the way) finished 82nd overall in class B, which was the middle class of 5 levels of difficulty.

Wednesday 14th September – Yeovil 5K

Steve Page was the only Doddler at the last Yeovil summer 5K of the year. "A lovely summer evening and we just managed to finish before darkness set in.

Time: 19 mins 52 secs. 1 second quicker than July. That's progression for you!!"

Sunday 11th September – High Ways and Sky Ways

Andy Goodman completed Axe Valley Runners' multi-terrain 17-miler at Charmouth in 3hrs 56 mins. He says:

"A pretty good route with some great views. Pity I faded badly in the last few miles, trying to run into the wind along the coast, up and over Golden Cap and a few other lumpy bits."

Sunday 4th September – The Beast

Rachel describes the Beast as "Hills, lots of them; coastal steps, lots of them. Ideal conditions and a beautiful blue sky." She also says that Matt's PB was due to him playing cat and mouse with her for 5 miles. Surely that would have slowed them both down.

1:46:39 Lynda Faulkner 2nd in category

1:47:40	Gavin Green
1:52:20	Stuart Read
1:57:44	Matt Clayton PB
1:58:06	Rachel Baker

Monday 29th August – Shillingstone 5

This was August's race in the Doddler Club Championships and had 113 finishers. Look [here](#) for the full results. It's a hilly little number (that's 5.3 miles to you and me) with a frighteningly steep downhill bit towards the end.

Sunday 21st August – Dorset Duddle

Matt Clayton (using the alias of Richard Fordham) ran the seriously undulating 32 miles from Weymouth to Swanage in a PB of 6 hours 59 minutes.

Well done Matt. We would have cheered you on as you passed the Eweleaze camp site, but it was raining. Matt says it started as a nice sunny morning in Weymouth at 9am, but by 9.05 it started to rain and the coastal path got very slippery. By Durdle Door it dried up and the going was good again.

Sunday 14th August – Great Yarmouth Half Marathon

1:50:40	Dave Rivett
---------	-------------

The weather was rather warm which scuppered my chances of a PB on the very flat course as did the lack of other Doddlers to chase! My time was identical to my Stur Half time from last week (that's consistency for you). It was a friendly race and I had a lot of comments from other runners about coming a long way to do the race. There were a few rather amusing moments where a slight incline was met with gasps of 'there's a hill coming', to which I announced 'that's not a hill!' I also bumped into a few members of Ian Pollards old club the 'Bungay Black Dogs'. All in all, a nice race, ideal for a good PB, which is well organised (although not as well organised as the Stur Half!).

Saturday 13th August – Maiden NewTEN Madness 10K

0:49:53	Neil Cranidge
0:52:36	Roger Teasdale
0:55:25	John Cowley

Sunday 24th July - Every Which Way But Loose

On Sunday 24 July three Doddlers completed the inaugural "Every Which Way But Loose", which is a self-navigating multi-terrain event. Seven points had to be visited (grid references supplied) with a question to be answered at each location.

Depending on the route you took between points, the distance should have been about 14 miles.

3:48:00	Debbie Broadhurst
3:51:00	Claire Dixon
4:07:00	Andy Goodman

This new summer run is a sister event to the existing winter run "Any Which Way You Can", which is scheduled for 15 Jan 2012.

---------	--------------

Sunday 10th July – Heveningham Hall 10K

1:00:12	Helen Kerridge
---------	----------------

Helen writes that this inaugural race was part of the annual Country Fair held at the Hall; a stunning place in a stunning location in beautiful mid Suffolk. The race was well run for a first attempt and the route, though not hilly, well it is Suffolk (!), was challenging in its own right with the last kilometre bar the 500m to the end going diagonally up across a sloping, mown field. The general consensus I think was that it was a good multi terrain route, enough to challenge even the best runners. My time was a little disappointing but I didn't know the route, and it was very hot and humid. Down side - all finishers received bright yellow t shirts which were fabulous at attracting every bug in the area!!

Saturday 9th July – Maiden Castle Loop

There were only 3 Doodlers taking part in the Maiden Castle Loop to enjoy the glorious sunshine with a gentle breeze and the fabulous views from the hill fort. The race itself, for those who haven't tried it, has something for every type of runner: a nice section of road for road runners, a long section of steady downhill for the striders, a couple of miles of rampart running for the off roaders and of course, a massive long uphill section for the masochists! The perfect way to spend a Saturday evening.

Thursday 7th July – Suzy Vivian Hill Challenge

Graham managed to convince 22 people to race a mile up Okeford Hill, and then Duncan surprised them into racing down again. Well they had to get back somehow, so why not go for a land-speed record? See [here](#) for a full set of results including the mad dash downhill.

Congratulations to George and Alice King for adding to the family reputation for running.

We plan to make this an annual event, and have decided to name it after long-time Doddler Suzy Vivian, who died recently.

Thursday 16th June – John Deacon Handicap

23 Doodlers competed in this undulating 6.66 mile handicap race from Hinton St Mary, with several more running round untimed. Runners' start times were spread over 26 minutes to try to get everyone to the finish at the same time, to make this a race that anyone might win. Fortunately for those recording the results at the end, they didn't actually all finish at the same time, although there was a bit of a panic at one point.

First across the line was Claire Dixon, who gets to keep the John Deacon shield for the year. She was closely followed by Natalie Perrett and Dave Wood. The fastest runner, who finished 9th, was James Rielly.

beating our crack men's team by less than 2 minutes. Out of the 24 teams competing, ours finished 2nd, 12th and 19th. Our B team was the first all-woman team for the third year running. Sunday 17th April - Virgin London Marathon

As you may have seen on TV, the weather was rather warm. Well done to all our runners!

3:38:52 Stuart Read (First Marathon so a very good PB)
3:40:42 Lerryn Chaffey
4:10:29 Rachel Baker
4:49:13 Tara Litton

7:28:42 Ian Pollard (as part of the Scope Human Centipede)

Afterwards Ian had this to say. Our Scope Human Centipede scorched around the VLM in a blistering 7hrs 30 mins. I recorded a time of 7:28:42 being near the front end of the 47-runner beast! However, we are now Guinness World Record holders for the most number of people tied together running a marathon. All great fun, especially the 4 loo stops with 47 people all remaining tied together commandeering an entire portaloos block - or on two occasions, a whole hedgerow.

Sunday 3rd April - Bournemouth Bay Half Marathon

A very nice route along the sea front with a couple of excursions inland, great for a PB! The weather was overcast although the sun came through on occasions which made the cool sea breeze welcome! There was a lot of support along the route including a few Doodlers (Karine and Tara Litton and Ian Hitching).

1:49:01 Tracy Horan 1st half (and therefore definitely a PB)
1:51:20 Jonathan Sterck PB

Saturday 26th March –Nightrunner 7

A 7 mile multi-terrain race at Beer in Devon. The catch being that it takes place in the dark. Can you guess who ran this one?

Sunday 13th March – Grizzly

The usual madness of bog, shingle, hills and all the rest. Only about 20 miles though.

Sunday 13th March – Salisbury 10

Dave reports that it was a very nice course that follows the river Avon to the north then returns on the opposite side. The course was predominately flat with a few 'mild' undulations. The weather was overcast although the temperature was ideal. On the return leg, the site of the cathedral in the background was quite iconic although it never seemed to get nearer! The finish was a lap of the athletics track and the timing was done with chips. Thanks to Trevor who used his warm down to come and support the other Doodlers!

Sunday 6th March – Mad March 20

Sandra says they thought they were mad to be doing it at the start, as it was very cold with a nice(?) easterly wind. Once they got started the temperature increased and there were beautiful blue skies above and some protection provided by the roadside hedges. Special thanks go to John Cowley, Christine Willis and Lorraine Read who turned up in support, and must have been frozen.

2:27:53 Ben King
2:38:23 Lerryn Chaffey
2:45:40 Stuart Read his first 20 mile race
2:56:55 Sandra Sanders PB by 9 minutes

Sunday 27th February – Terminator

Do you get the feeling they ran every one of the 11 miles of hills and mud together? How sweet. Rachel reports that it was as muddy as always with the newly added 'Ditch'!!

2:11:50 Rachel Harrison
2:11:51 Keith Harrison

Sunday 20th February – Lytchett Manor 10

Although conditions were a bit chilly to begin with, by the time the first few undulating miles were completed, those who had dressed for winter were beginning to feel a bit warm, and when the runners reached the top of Dolmans Hill they were looking quite hot in the sunshine. Ben, Trevor and Ian were tussling for the honour of being the first Doodler home for most of the race, and you can see from the results that it was pretty close at the finish. Dawne unfortunately had to pull out early on with shin splints. And welcome to Jane Feather who only joined a few days ago.

It was very windy out on the course, and apart from miles 6 to 9, it all seemed to be headwinds. Various Doodlers and supporters gave encouragement (and occasional abuse) by bicycle and from vantage points (pubs?) around the route. Tiddlers Arthur King and Wilson Green were there at the finish, although they seemed incapable of cheering and spent much of their time asleep. Does Karine have Doddlers T-shirts in baby sizes? John Cowley had a close encounter with a car at mile 2, but got away with a scuffed shoe. He doesn't have much luck in traffic, as he was nearly run down by a van at mile 5 of the Stickler a few months ago.

Saturday 29th January – Blackdown Beast

Andy Goodman completed the Blackdown Beast, about 15 miles with three pub stops and another at the end.

“Somebody in the group said we took 2 hours 46 running, (and walking), between pubs. Time not really relevant, as we went at the speed of the slowest and at least two people in the group had never run that far before.”

Sunday 16th January – Any Which Way You Can

Andy Goodman completed the inaugural "Any Which Way You Can", a self-supporting, self-navigating event from Axe Valley Runners, in 3:41. A nice casual atmosphere with pasties and lots of cakes at the end.
